John Cullinan is a Lecturer in Economics at the National University of Ireland (NUI), Galway. He completed his doctoral studies at NUI Galway and holds Masters degrees in econometrics and economics from the London School of Economics and Political Science and University College Dublin (UCD), respectively. John previously worked as a Lecturer in Economics at the University of Limerick, NUI Maynooth and UCD, as a Consultant with Indecon Economic Consultants and he was a Visiting Scholar at the University of California, Berkeley in 2008. John's research interests lie in the application of econometric and spatial modelling techniques in the fields of health economics and spatial economics. He has a long-held interest in the economics of disability.

Seán Lyons is an Associate Research Professor at the Economic and Social Research Institute and an Adjunct Associate Professor in the Department of Economics at Trinity College Dublin (TCD). Formerly he was a partner at Indecon Economic Consultants, a senior adviser for Ireland's telecoms regulator and a Managing Consultant at London Economics. Seán holds a PhD in Economics (TCD), an MPhil in Economics (University of Cambridge) and a BA in History (TCD). He specialises in applied microeconomics, with a particular focus on regulation, consumer demand analysis and policy modelling and he has a long-standing research interest in the cost of disability and the economics of long-term care. Seán is Honorary Secretary of the Statistical and Social Inquiry Society of Ireland.

Brian Nolan is currently Principal of the College of Human Sciences in University College Dublin and has been Professor of Public Policy there since 2007. He previously worked at the Economic and Social Research Institute and the Central Bank of Ireland. He has a BA in Economics and History from UCD, an MA in Economics from McMaster University (Ontario) and a doctorate

in economics from the London School of Economics and Political Science. His main areas of research are poverty, income inequality, the economics of social policy and health economics. He co-edited the *Handbook of Economic Inequality* (2008) and *The Great Recession and the Distribution of Household Income* (2013) for Oxford University Press, which also published *Poverty and Deprivation in Europe*, co-authored with Christopher T. Whelan (2011).

Joanne Banks works in research on special educational needs at the Economic and Social Research Institute. She is particularly interested in the experiences of students with special needs in mainstream education, special needs identification and the ways in which resources are assigned to children with special needs.

Aoife Callan is a Health Research Board-funded Health Economics Postgraduate Research Fellow based at the Discipline of General Practice and Discipline of Economics at National University of Ireland, Galway. Her research interests include health and social care economics, health technology assessment, non-market valuation techniques and applied microeconometrics.

Sheelah Connolly is a Research Fellow within the Academic Unit of Neurology, Trinity College Dublin. She was awarded a PhD in Epidemiology from Queen's University Belfast and an MSc in Health Economics from the University of York. Her research interests lie in the social determinants of health and the economics of ageing.

Denise Frawley is a Research Assistant at the Economic and Social Research Institute. She is currently working on a longitudinal project that will track the experiences, progress and outcomes for a cohort of students with special educational needs in primary and post-primary schools in Ireland.

Paddy Gillespie is a Lecturer in Economics at the School of Business and Economics, National University of Ireland, Galway. His research interests focus on the area of health economics and his work to date has explored a variety of questions in relation to heart disease, diabetes, dementia and infectious disease.

Brendan Kennelly is a Lecturer in Economics and Director of the MSc (Health Economics) programme at National University of Ireland, Galway. His main research interest is health economics, particularly in relation to mental health

and suicide and he also does research on economics education. He has published papers on these and other topics in a number of leading journals.

David Madden is an Associate Professor of Economics at University College Dublin, where he has worked since 1991. His research interests lie in the areas of health inequality and poverty, obesity and taxation. His previous work experience includes AIB Investment Managers, the Central Bank of Ireland, the Ministry of Health, Kaduna, Nigeria, National University of Ireland, Maynooth and the Economic and Social Research Institute.

Selina McCoy is joint Education Programme Co-ordinator at the Economic and Social Research Institute and Adjunct Professor at Trinity College Dublin. She has published extensively on Irish education, addressing a range of policy-relevant topics spanning primary and second-level education, post-school transitions and higher education.

Eamon O'Shea is a personal Professor in the Discipline of Economics at National University of Ireland, Galway. He has published numerous papers in leading international journals and has authored/co-authored 14 books and monographs, mainly in the field of ageing and social policy. He is a former Chair of the National Economic and Social Forum Expert Group on Care of the Elderly.

Aine Roddy is an Irish Research Council Scholar and PhD student in Economics at National University of Ireland, Galway. Her doctoral research focuses on the economics of childhood disability, in particular the economic costs associated with childhood disability.
